Pack	Inspired by	Looks	Presets
Studio Looks (SL)	10 leading Indian wedding studios	10	50
World Looks (WL)	20 world fine-art / luxury wedding photographers	20	100
Glamour Looks (GL)	10 magazine-cover glamour / beauty photographers	10	50
Landscape Looks (LL)	20 world landscape photographers (landscape variations; no Exposure/WB written)	20	100
Street Looks (ST)	20 world colour street photographers (street variations; no Exposure/WB written)	20	100
Portrait Looks (PT)	20 world portrait photographers (portrait variations; no Exposure/WB written)	20	100
Total		**100**	**500**

Every look comes as 5 variations built for different lighting, so a whole wedding can be graded with ONE look. Studio, World and Glamour looks use the wedding variations below; Landscape looks use landscape variations (01 Signature, 02 Golden Hour, 03 Blue Hour Night, 04 Overcast Mist, 05 Dramatic) and Street looks use street variations (01 Signature, 02 Harsh Sun, 03 Night Neon, 04 Overcast Flat, 05 Punchy) and Portrait looks use portrait variations (01 Signature, 02 Window Light, 03 Studio Flash, 04 Soft Beauty, 05 Editorial Punch); none of these three writes Exposure, Temperature or Tint:

Variation	Use it on
01 Signature	The core look - general purpose, start here

02 Daylight Bright	Outdoor day, haldi / mehendi, bright venues - lifts exposure, tames highlights
03 Reception Night	Indoor LED / tungsten / low light - opens shadows, protects highlights, pulls saturation off orange/yellow so skin does not go orange
04 Soft Matte	Gentle faded version - couple portraits, bride getting ready, soft window light
05 Rich	Punchier, deeper version - editorial hero frames, decor, colourful outfits

Folders:

- Studio Looks - Presets / World Looks - Presets / Glamour Looks - Presets / Landscape Looks - Presets / Street Looks - Presets / Portrait Looks - Presets: one sub-folder per look, 5 .xmp files each.
- INSTALLATION - Presets.md - step-by-step install for Lightroom Classic, Lightroom (cloud/desktop), Lightroom Mobile and Camera Raw.
- HOW TO USE - Presets.md - workflow, which look for which wedding, skin-tone rules, troubleshooting.
- COPYRIGHT.txt and CeleBrat_Product_ID_Register_v1.0.csv.

Technical

- Built and tested on Nikon raw files (NEF). Also work on other raw formats and JPEGs, but verified on Nikon.
- Adobe Color profile, Process Version 15.4 (Lightroom Classic 13+, Lightroom, Camera Raw 16+).
- White balance is never changed: no preset writes Temperature or Tint, so your As-Shot or custom WB stays exactly as you set it.
- Sharpening, noise reduction, lens corrections, crop and masks are not touched.
- Skin: every one of the 500 variations was checked on 13 real wedding raws (tungsten, LED, daylight, shade, harsh sun, night); median skin hue stays in the natural 19-31 degree band with no orange or magenta cast. Glamour looks sit at the rosier end of that band on purpose.

The 100 looks - what they are and which images they suit

Studio Looks (SL) - inspired by 10 leading Indian wedding studios

1. Shutterink Look (files `Cele-Brat SI ...`)
Inspired by: Shutterink (Nitin Dangwal, Delhi)
Look: Documentary warm look: soft capped highlights (~220), warm brown shadows, medium saturation, olive greens. Skin creamy-warm and slightly muted.
Best for: Candid / documentary frames, pheras and rituals in mixed light, emotional moments, haldi and mehendi in daylight. Works on both bright and dim frames because highlights are protected.

2. Joseph Radhik Look (files `Cele-Brat JR ...`)
Inspired by: Stories by Joseph Radhik (Mumbai)
Look: Bold editorial: deep blacks (~8), clean bright whites (~236), high saturation (0.48), rich deep reds and warm skin with luminous

highlights.
Best for: Statement frames: bride portraits with red / pink lehengas, dramatic wide venue shots, big-light stage moments, couple portraits at golden hour. Best on well-exposed, well-lit frames.

3. The Wedding Story Look (files `Cele-Brat TWS ...`)
Inspired by: The Wedding Story (Delhi)
Look: Bright and airy pastel: high key (median ~185), lifted blacks (~37), low saturation (0.19), creamy pale-warm skin, whites soft (~230).
Best for: Daytime outdoor weddings, destination beach / lawn frames, white-and-pastel decor, morning rituals, brides in ivory / pastel lehengas. Avoid on very dark reception frames (use variation 03).

4. KnotsbyAMP Look (files `Cele-Brat AMP ...`)
Inspired by: KnotsbyAMP (Mumbai)
Look: Bright, clean, true-to-life: bright midtones (~181), clean whites (~250), slightly lifted blacks (~27), natural saturation (0.26), healthy warm-pink skin.
Best for: All-round wedding coverage where colours must stay true (client-safe family portraits, decor shots, group photos, day rituals). Great default set for a full gallery.

5. Studio A Look (files `Cele-Brat SA ...`)
Inspired by: Studio A by Amar Ramesh (Chennai)
Look: Clean muted South-Indian classic: neutral-to-cool whites (~214/221/222), matte blacks (~14), low saturation (0.22), skin slightly muted and neutral, aqua tones kept.
Best for: Temple / kanjivaram / South-Indian weddings with heavy gold and silk, bright daylight mandaps, frames with a lot of white and cream. Keeps gold from going orange.

6. Vivek Krishnan Look (files `Cele-Brat VK ...`)
Inspired by: Vivek Krishnan (Bangalore / Chennai)
Look: Soft filmic: highlights capped (~212), gentle blacks (~18), medium-low saturation (0.26), subtle magenta-pink shadow tint, warm skin (~163/127/102).
Best for: Couple portraits, soft window light, pre-wedding shoots, sangeet and mehendi in shade. Flattering on skin; ideal for intimate frames rather than big venue wides.

7. Fourfold Pictures Look (files `Cele-Brat FF ...`)
Inspired by: Fourfold Pictures (Delhi)
Look: Dark and moody warm: crushed blacks (p1 ~0), low midtones (~82), warm yellow highlights (~218/211/193), saturation 0.29, skin warm-honey.
Best for: Evening / night receptions, candle-lit or fairy-light frames, dramatic couple portraits, low-key varmala and pheras. On bright daylight frames use variation 02 to avoid overly dark results.

8. WeddingNama Look (files `Cele-Brat WN ...`)
Inspired by: WeddingNama (Bangalore)
Look: Vibrant warm with a teal counterpoint: healthy saturation (0.37), warm highlights (~215/204/195), medium blacks (~23), bright warm skin (~176/142/112), aqua/teal preserved.
Best for: Colourful decor, mehendi / haldi / sangeet, South and North Indian ceremonies with lots of marigold and greenery, outdoor day portraits. Gives the “wow” gallery look while keeping skin clean.

9. Gautam Khullar Look (files `Cele-Brat GK ...`)
Inspired by: Gautam Khullar (Delhi)
Look: Deep, rich, golden: very high saturation (0.52), dark median (~62), deep blacks (~5) with blue crushed out of shadows, warm-brown shadows, saturated golden skin (~162/127/93).
Best for: Dramatic ritual frames (pheras with fire, varmala under warm light), rich lehenga colours, evening baraat, low-light temple frames. Use on frames with strong colour; variation 04 for softer portraits.

10. Ramit Batra Look (files `Cele-Brat RB ...`)
Inspired by: Ramit Batra (Delhi)
Look: Heavy matte fade: blacks lifted to ~52 (grey fade), dark median (~96), yellow-warm midtones (~137/112/78) and highlights (~216/206/181), saturation 0.38, warm skin.
Best for: Editorial / fashion-style couple portraits, palace and heritage venues (sandstone, marble), golden-hour frames, moody indoor portraits. Very stylised; use variation 02 or 03 for mixed galleries.

World Looks (WL) - inspired by 20 of the world's leading fine-art / luxury wedding photographers

1. Jose Villa Look (files `Cele-Brat JV ...`)
Inspired by: Jose Villa (California / worldwide)
Look: Golden film warmth: honeyed yellow-orange midtones, warm brown shadows, medium-high saturation (0.38), skin warm and glowing. The classic Contax/Fuji 400H "Villa" glow.
Best for: Golden-hour couple portraits, outdoor pheras, sangeet in warm light, Rajasthan palace lawns, ivory/gold outfits. Less suited to blue-hour or LED-lit receptions (use 03).

2. KT Merry Look (files `Cele-Brat KTM ...`)
Inspired by: KT Merry (Miami / worldwide)
Look: Bright airy editorial: high median (~172), lifted blacks (~29), very low saturation (0.16), neutral-cool highlights, soft creamy skin.
Best for: Bright daytime destination weddings, white/pastel decor, beach and lawn ceremonies, brides in ivory. Flatters overexposed frames; avoid on dark receptions (use 03).

3. Greg Finck Look (files `Cele-Brat GF ...`)
Inspired by: Greg Finck (Paris / French Riviera)
Look: Fine-art film with faintly green-olive shadows (~31,39,24), creamy neutral highlights, medium saturation (0.28), warm-natural skin (hue 28).
Best for: Outdoor European-style venues, greenery and gardens, destination weddings in Italy/France/Goa, engagement sessions in nature. Greens stay elegant instead of neon.

4. Erich McVey Look (files `Cele-Brat EM ...`)
Inspired by: Erich McVey (Oregon / worldwide)
Look: Moody film: dark median (~76), highlights capped around 181, medium-high saturation (0.35), deep warm skin (hue 23), olive-brown shadows.
Best for: Dramatic couple portraits, overcast or shaded light, forest/mountain destination weddings, intimate indoor moments with window light. Do not use on already-dark reception frames.

5. Corbin Gurkin Look (files `Cele-Brat CG ...`)
Inspired by: Corbin Gurkin (Charleston / worldwide)
Look: High-key faded pastel: very bright median (~200), blacks lifted to ~140 in the brightest frames, near-monochrome saturation (0.08), neutral-warm skin.
Best for: Ethereal bridal portraits, veils and white dresses, bright overcast or backlit frames, minimalist editorial. Strong stylisation - use on clean, simple compositions.

6. Samm Blake Look (files `Cele-Brat SB ...`)
Inspired by: Samm Blake (New York / worldwide)
Look: Warm documentary: median ~101, blacks ~20, warm-olive shadows (39,38,24), highlights softened to ~223, medium saturation (0.29), warm skin (hue 24).
Best for: Candid reportage, baraat and sangeet energy, family moments, mixed daylight-plus-tungsten interiors. Honest, timeless documentary tone.

7. Nirav Patel Look (files `Cele-Brat NP ...`)
Inspired by: Nirav Patel (Los Angeles / worldwide)
Look: Dark romantic: low median (~78), warm brown shadows (46,32,24), red-orange dominant palette, saturation 0.35, deep warm skin (hue 24).
Best for: Night and low-light couple portraits, candle-lit or lantern-lit frames, dramatic haveli interiors, red/maroon outfits. Avoid on flat bright daylight (use 02).

8. Pablo Laguia Look (files `Cele-Brat PL ...`)
Inspired by: Pablo Laguía (Spain / worldwide)
Look: Clean natural editorial: median ~152, neutral highlights, low-medium saturation (0.22), true-to-life skin (hue 27), olive-warm shadows.
Best for: All-round safe look: ceremonies, portraits, decor, group photos. Works in almost any light because it changes colour the least - a good “house” default.

9. Cinzia Bruschini Look (files `Cele-Brat CB ...`)
Inspired by: Cinzia Bruschini (Italy / worldwide)
Look: Golden Italian editorial: darker median (~93), high saturation (0.39), yellow-dominant hues (48%), brown-gold shadows (36,30,15), warm skin (hue 30).
Best for: Sun-drenched outdoor weddings, Tuscany-style venues, sunset portraits, haldi and yellow/gold outfits, sandstone forts of Rajasthan. Not for cool blue-hour frames.

10. Heather Waraksa Look (files `Cele-Brat HW ...`)
Inspired by: Heather Waraksa (New York / worldwide)
Look: Warm timeless film: lifted warm shadows (54,45,24), median ~140, warm creamy highlights (222,208,194), medium saturation (0.30), peachy skin (hue 22).
Best for: Classic bridal portraits, elegant indoor venues with window light, cocktail hours, timeless black-tie-style receptions. Fades gently without going grey.

11. James x Schulze Look (files `Cele-Brat JXS ...`)
Inspired by: James x Schulze (New York / worldwide)
Look: Fresh garden editorial: bright median (~156), faint green shadows (31,39,21), clean bright highlights (228,226,227), medium saturation (0.30), luminous fair skin (191,153,122).
Best for: Garden and estate weddings, lush greenery, spring/monsoon frames, bright florals, daytime cocktail scenes. Keeps foliage rich but natural.

12. Bottega53 Look (files `Cele-Brat B53 ...`)
Inspired by: Bottega53 (Italy / worldwide)
Look: Italian warm editorial: median ~132, warm brown shadows (37,32,20), warm highlights (231,218,211), medium-high saturation (0.31), warm-peach skin (hue 23).
Best for: Destination weddings, villa and palace exteriors, warm-stone architecture, sunset couple sessions, reception dinners under string lights.

13. Anni Graham Look (files `Cele-Brat AG ...`)
Inspired by: Anni Graham (Texas / worldwide)
Look: Muted film: median ~140, olive-yellow shadows (37,40,24), warm soft highlights (218,208,198), low-medium saturation (0.22), warm skin (hue 30).
Best for: Editorial bridal portraits, desert/ranch-style light, warm afternoon sun, relaxed engagement sessions. Gentle, magazine-like restraint.

14. David Bastianoni Look (files `Cele-Brat DB ...`)
Inspired by: David Bastianoni Studio (Tuscany / worldwide)
Look: Soft neutral editorial: median ~140, neutral shadows (36,34,28), neutral-cool highlights (220,216,216), low-medium saturation (0.22), natural skin (hue 30).

Best for: Editorial and fashion-led wedding frames, black-tie receptions, architectural venues, monochrome outfits. Neutral base that lets decor colours speak quietly.

15. Mili Ghosh Look (files `Cele-Brat MG ...`)
Inspired by: Mili Ghosh (London / worldwide)
Look: Cinematic crush: highlights capped low (~188), median ~118, red-dominant palette (52%), magenta-leaning shadows and midtones (138,114,119), saturation 0.29, rosy skin (hue 17-20).
Best for: Moody editorial storytelling, sindoor / vermilion and red outfits, dim mandap and reception frames, film-like night portraits. Strong look - use on frames with strong colour.

16. Norman and Blake Look (files `Cele-Brat NB ...`)
Inspired by: Norman & Blake (California / worldwide)
Look: Sunlit film: lifted warm shadows (53,48,19), median ~120, highlights ~202 kept soft, red-orange dominant, medium saturation (0.26), warm skin (hue 31).
Best for: Backlit golden-hour sessions, warm sunny outdoor mandaps, relaxed candid moments, beach weddings. Shadows glow amber instead of going black.

17. Joel Serrato Look (files `Cele-Brat JS ...`)
Inspired by: Joel Serrato (California / worldwide)
Look: Cream film: bright median (~167), lifted warm shadows (43,33,28), creamy yellow highlights (224,218,198), low saturation (0.19), soft skin (hue 29).
Best for: Bright airy portraits, morning rituals, pastel and ivory decor, soft window-light bridal prep. Highlights turn cream rather than clipping white.

18. Kristen Marie Parker Look (files `Cele-Brat KMP ...`)
Inspired by: Kristen Marie Parker (Seattle / worldwide)
Look: Editorial contrast: median ~101, blacks ~12, yellow-dominant hues with cyan accents, saturation 0.26, warm natural skin (hue 27).
Best for: Fashion-forward couple sessions, luxury hotel and modern venues, pool/sea backdrops, statement outfits. Punchy but controlled.

19. Abby Jiu Look (files `Cele-Brat AJ ...`)
Inspired by: Abby Jiu Photography (Washington DC / worldwide)
Look: Quiet luxury: median ~121, cool-neutral shadows (26,31,25), neutral highlights (218,215,212), low-medium saturation (0.25), natural skin (hue 29).
Best for: Elegant ballroom and estate weddings, classic bridal portraits, black-tie evenings, monochrome florals. Refined, never warm-cast; shadows stay clean.

20. John Dolan Look (files `Cele-Brat JD ...`)
Inspired by: John Dolan (New York / worldwide)
Look: Reportage classic: median ~121, slightly magenta-warm shadows (38,30,28), neutral highlights (226,225,220), medium saturation (0.29), honest skin (hue 26).
Best for: Pure documentary coverage: baraat, ceremonies, guests, dancing, quiet in-between moments. Looks like a well-printed photo book - nothing stylised.

Glamour Looks (GL) - inspired by 10 of the world's leading glamour / fashion / beauty cover photographers

1. Mario Testino Look (files `Cele-Brat MT ...`)
Inspired by: Mario Testino (Vogue, Vanity Fair, V)
Look: Sunny glamour: bright median (~144), deep blacks (~10), warm brown shadows (39,25,20), red-dominant palette (55%), golden-tan glowing skin (187,144,116), clean warm highlights.

Best for: Cover-style bride and groom portraits in sun or big soft light, pre-wedding shoots in beach/resort light, red and gold outfits, confident full-body fashion poses. Needs well-lit frames.

2. Inez and Vinoodh Look (files `Cele-Brat IV ...`)
Inspired by: Inez & Vinoodh (Vogue, Elle, Harper's Bazaar covers)
Look: Studio contrast: crushed blacks (~2), bright clean whites (~251), median ~94, low saturation (0.22), cool-pink clean skin (177,135,115 / hue 19), faint magenta in the mids.
Best for: Studio-style cover portraits against plain backdrops, black-tie and monochrome outfits, dramatic flash-lit couple portraits, editorial close-ups. Strong look - best on simple backgrounds.

3. Nick Knight Look (files `Cele-Brat NK ...`)
Inspired by: Nick Knight (SHOWstudio, Vogue, V)
Look: Candy gloss: median ~134, glossy clean highlights (228,221,218), magenta and blue accents (hue bins 7 and 11 at 17-18%), porcelain-pink skin (hue 20), medium-low saturation (0.23).
Best for: High-fashion bridal portraits, pink/lilac/blue decor, modern venues with neon or coloured light, creative couple editorials. Pushes colours away from natural - use on stylised frames.

4. Norman Jean Roy Look (files `Cele-Brat NJR ...`)
Inspired by: Norman Jean Roy (Vogue China, Vanity Fair, GQ)
Look: Cinematic teal: very dark median (~51), teal-green shadows and mids (21,26,24 / 108,112,96), green-tinted highlights (208,212,196), saturation 0.36, warm filmic skin (hue 29) against cool surroundings.
Best for: Dramatic low-key portraits, moody night and interior frames, grooms and black-tie, cinematic pre-wedding films/stills. Not for bright pastel daytime weddings.

5. Alexi Lubomirski Look (files `Cele-Brat AL ...`)
Inspired by: Alexi Lubomirski (Harper's Bazaar, Vogue, royal portraits)
Look: Velvet portrait: median ~114, red-dominant (44%), warm-rose skin (179,132,110 / hue 19), warm soft highlights (225,216,208), saturation 0.24, shadows warm-brown with a touch of magenta.
Best for: Elegant bride and couple portraits, palace and heritage interiors, warm window light, red/maroon/wine outfits, classic timeless cover feel. Very safe on Indian skin.

6. Txema Yeste Look (files `Cele-Brat TY ...`)
Inspired by: Txema Yeste (Vogue Spain, Numero, Harper's Bazaar)
Look: Bold colour: high saturation (0.49), darker median (~87), deep shadows (32,19,20), cyan and magenta accents, warm-natural skin (168,132,104 / hue 26), punchy editorial contrast.
Best for: Colourful outfits and decor, sangeet and mehendi with bold palettes, graphic fashion-style poses, strong-colour backdrops. Avoid on frames where colour is already clipping.

7. Greg Williams Look (files `Cele-Brat GW ...`)
Inspired by: Greg Williams (Hollywood Authentic, celebrity covers)
Look: Hollywood candid: muted warm film, median ~133, red-dominant (82%), muted low saturation (0.25), soft warm highlights (222,215,209), rosy-neutral skin (159,119,100 / hue 19). Also a B&W specialist.
Best for: Behind-the-scenes and candid moments with a star-quality feel, groom prep, cocktail hours, black-tie evenings, Leica-style available-light frames. Flattering on mixed indoor light.

8. Zoey Grossman Look (files `Cele-Brat ZG ...`)
Inspired by: Zoey Grossman (Allure, Vogue, Elle covers)
Look: Sunlit beauty: median ~128, warm cream highlights (231,215,202), warm-brown shadows (33,28,25), red-orange dominant, warm-rose skin (170,129,102 / hue 24), saturation 0.29, soft polished skin.
Best for: Beauty-led bridal portraits, haldi and golden-hour sun, close-up jewellery and makeup frames, natural-light pre-wedding shoots. The most "beauty cover" look for soft daylight.

9. Emma Summerton Look (files `Cele-Brat ES ...`)
Inspired by: Emma Summerton (Vogue Italia, Harper's Bazaar UK)
Look: Pop saturation: very high saturation (0.54), dark median (~58), deep warm shadows (39,27,20), bold reds and yellows, warm skin (154,118,84 / hue 29), surreal-glossy fashion colour.
Best for: Statement frames only: vivid lehengas, colourful mandap decor, fashion-style poses, bold-colour backdrops, night-time stage lighting. Use at reduced Amount (50-70%) on normal frames.

10. Luigi and Iango Look (files `Cele-Brat LI ...`)
Inspired by: Luigi & Iango (Vogue Germany/Japan, Harper's Bazaar covers)
Look: Rose studio: median ~128, pink-neutral highlights (222,215,210), magenta accents (23% of colour), rose-porcelain skin (184,148,129 / hue 21), saturation 0.24, smooth polished glamour.
Best for: Studio-style beauty portraits, pink/rose/blush decor, bridal makeup close-ups, soft flash-lit frames, evening glamour portraits. Pulls skin clean-pink; ideal for fair to medium skin.

Landscape Looks (LL) - inspired by 20 of the world's leading landscape photographers

All 20 landscape looks come as landscape variations (01 Signature, 02 Golden Hour, 03 Blue Hour Night, 04 Overcast Mist, 05 Dramatic) and NEVER write Exposure, Temperature or Tint.

1. Marc Adamus Look (files `Cele-Brat MA ...`)
Inspired by: Marc Adamus (USA - grand wilderness, Oregon / Patagonia / Arctic)
Look: Epic contrast: median ~85, deep blue shadows (34,40,52), warm glowing highlights (231,210,191), half the colour mass in the blue bin, sky (87,100,129) hue 221, saturation 0.31.
Best for: Big mountain and coast scenes with dramatic sky, sunrise/sunset over peaks, pre-wedding couples in grand landscapes (Ladakh, Spiti, Kashmir), travel hero frames.

2. Max Rive Look (files `Cele-Brat MR ...`)
Inspired by: Max Rive (Netherlands - alpine / Himalaya / Patagonia)
Look: Dark alpine: median ~56 (darkest of the 20), near-neutral cool blacks (34,34,39), warm highlights (228,208,192), reds 30% and blues 26% of colour mass, saturation 0.29.
Best for: Moody mountain frames, storm light, peaks with dramatic cloud, dark pre-dawn landscapes, hiker/couple-in-landscape silhouettes. Needs a frame with a bright light source to shine.

3. Daniel Kordan Look (files `Cele-Brat DK ...`)
Inspired by: Daniel Kordan (Russia / Italy - travel landscape, Iceland / Lofoten / Dolomites)
Look: Balanced vivid: median ~102, neutral shadows (44,43,40), soft highlights (214,203,198), sky (100,124,151) saturation 0.34, vivid foliage (saturation 0.52), overall saturation 0.34.
Best for: All-round landscape look - daytime mountains, lakes with reflections, autumn colour, lavender/flower fields, destination pre-wedding frames. Safe starting point for most outdoor scenes.

4. Elia Locardi Look (files `Cele-Brat EL ...`)
Inspired by: Elia Locardi (USA - travel / cityscape landscape)
Look: HDR-clean travel: median ~82 with bright clean whites (p99 ~242), warm shadows (43,35,33), the most saturated sky of the set (84,114,154 / sat 0.46), vivid foliage (0.69), saturation 0.36.
Best for: Travel and cityscape frames, forts and palaces against blue sky, blue-hour city skylines, bright destination-wedding venues, drone frames. Punchy - keep Amount at 70-80% on subtle scenes.

5. Michael Shainblum Look (files `Cele-Brat MS ...`)
Inspired by: Michael Shainblum (USA - seascape, Milky Way, timelapse)

Look: Night and sea: median ~64, cool neutral shadows (36,36,40), warm highlights (221,209,190), blue bin 34% of colour mass, sky (93,107,131) hue 218, saturation 0.33.
Best for: Coastal and sea frames, star and Milky Way skies, blue hour with city/venue lights, moody beach pre-weddings, night exteriors of venues. Variation 03 is the astro / night one.

6. Ryan Dyar Look (files `Cele-Brat RD ...`)
Inspired by: Ryan Dyar (USA - Pacific Northwest, glowing light)
Look: Golden glow: median ~76, warm brown shadows (48,37,30), very warm highlights (238,200,140), red+orange 59% of colour mass, saturation 0.39, foliage vivid (0.59), little blue sky.
Best for: Sunset and sunrise frames, backlit forests, golden-hour couples in fields, desert and dune scenes, warm autumn. Not for midday blue-sky frames (it warms everything).

7. Ted Gore Look (files `Cele-Brat TG ...`)
Inspired by: Ted Gore (USA - dark moody wilderness)
Look: Dark glow: median ~49, cool blacks (32,34,40), warm highlights (236,207,190), balanced hue mix with aqua/blue 33%, saturation 0.36. Light glows out of darkness.
Best for: Moody forests and waterfalls, storm skies, mist and rain, dark temple/heritage exteriors, cinematic couple frames in weather. Dark look - use on frames with a clear light source.

8. Erin Babnik Look (files `Cele-Brat EB ...`)
Inspired by: Erin Babnik (USA / Italy - alpine blue hour, Dolomites)
Look: Blue-hour pastel: median ~102, blue-violet shadows (43,43,63), cool highlights (210,204,217), 86% of colour mass in blue and purple, sky (103,104,157) hue 239, saturation 0.28.
Best for: Blue hour and twilight, snow and alpine scenes, pastel dawn skies, cool misty mornings, soft couple frames after sunset. Cool look - do not use on warm tungsten scenes.

9. Albert Dros Look (files `Cele-Brat AD ...`)
Inspired by: Albert Dros (Netherlands - vivid travel / tulip / mountain)
Look: Clean vivid: median ~88, cool shadows (39,40,46), warm highlights (214,206,186), blue bin 34%, sky (89,110,142) sat 0.37, foliage sat 0.50, saturation 0.38.
Best for: Flower fields, tulip and mustard fields, colourful villages, clean mountain lakes, bright destination frames with colourful decor. Clean and commercial.

10. Thomas Heaton Look (files `Cele-Brat TH ...`)
Inspired by: Thomas Heaton (UK - natural landscape, Lake District / Scotland)
Look: Natural restrained: median ~104, neutral shadows (39,39,43), slightly cool-magenta highlights (215,204,214), aqua+blue 53%, muted foliage (sat 0.28), saturation 0.29.
Best for: Honest natural landscapes, hills and lakes, overcast UK-style light, travel documentary frames, when the client wants it to look real. Very safe all-day look.

11. Nigel Danson Look (files `Cele-Brat ND ...`)
Inspired by: Nigel Danson (UK - bright natural landscape, Peak District)
Look: Bright earthy: median ~129 (brightest of the 20), warm yellow-brown shadows (46,47,37), neutral highlights (211,213,201), orange+yellow 52%, muted sky (sat 0.24), saturation 0.26.
Best for: Bright daylight landscapes, moorland and heather, autumn woodland, soft overcast scenes, documentary outdoor coverage. Light and natural - good on bright day frames.

12. Peter Lik Look (files `Cele-Brat PL ...`)
Inspired by: Peter Lik (Australia / USA - gallery fine-art landscape)
Look: Gallery saturation: median ~86, the most saturated look of the set (0.49), magenta-tinted shadows (44,35,40), sky (88,126,168) sat 0.48, foliage sat 0.56, magenta accents.

Best for: Hero wall-print frames: canyons, red rock, aurora, sunsets, lavender, autumn, waterfalls. Very strong - use at 50-70% Amount on ordinary frames; full strength only on the one hero image.
